Notes/Legal Notes

Notes

1. Stock exchange transactions generally settle on the trade date plus one business day (T+1). Options, futures and US open-end mutual fund transactions also settle on trade date plus one business day. Some exchanges and other transaction types may have longer or shorter settlement periods. Ending settled cash reflects the cash that has actually settled.
2. Initial and maintenance margin requirements are available within the Account Window of the Trader Workstation.
3. Quantities preceded by a "-" sign indicate sell transactions. Other transactions are purchases.
4. For shares traded on US markets, Interactive Brokers Ireland Limited (IBIE) acts as agent in executing the fractional portion of your order. In certain circumstances, IBIE routes that portion to an affiliate, which may execute it either as principal or riskless principal. If an IB affiliate executes as i) principal, the order will be executed at the price displayed for the opposite side of the NBBO from your order (the offer if you are buying and the bid if you are selling) at the time of execution, ii) riskless principal, the affiliate will execute that portion of your order at the price it receives for the execution of the whole share. The way in which the fractional portion of the order is executed is indicated by the codes associated with the trade. For shares traded on European Markets, IBIE will generally act as counterparty for any fractional portion of your order for shares, which it will execute as principal, for a total consideration which is equal to (or better than), the total consideration for the execution of a full share available at the European trading venues and SIs to which IBIE has access. In certain circumstances, IBIE may route a full share order to the available European trading venues acting in an Agency capacity and the fractional portion of the order will be allocated to your account at the price traded in the trading venue and the remaining fractional portion will be allocated to an affiliate.
5. In case of partial executions, commissions are charged on the total quantity executed on the original order. The commission is displayed on the first partial execution only.
6. Trade execution times are displayed in Eastern Time.
7. Applicable fees for your transactions are available on the IB website at www.interactivebrokers.com/en/accounts/fees/exchangeAndRegulatoryFees.php.
8. Directive 2014/65/EU and its implementing measures (MiFID II) applies to all client funds and client financial instruments (Client Assets) on this statement except those Client Assets that are not classified as segregated assets and funds derived from trading Crypto-Assets. IBIE is also subject to the client asset requirements set out in the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1))(Investment Firms) Regulations 2023 (=S.I. No. 10 of 2023).

   Client assets that are not classified as segregated securities comprise securities lent under the Stock Yield Enhancement Programme as identified in the IBKR Managed Securities Lent section of this statement and Client Assets noted as Not Segregated in the Collateral for Customer Borrowing section of this statement. Funds derived from trading Crypto-Assets include funds from sell transactions. IBIE applies the MiFID II Client Asset protection requirements to funds and instruments that are not subject to MiFID II in the same way as it applies those requirements to Client Assets.

Fixed Income Notes

1. Call features for bonds or preferred stocks may affect the yield. For zero coupon, compound interest and multiplier securities, there are no periodic payments and securities may be callable below maturity value without notice to holder unless registered. For asset-backed securities, the actual yield may vary depending on the speed at which the underlying note is pre-paid. For additional information regarding bond yield, please contact the IB Help Desk at: ibkr.com/help. If this debt security is unrated by a nationally recognized statistical rating organization, it may pose a high risk of default. You should consult an independent advisor to determine whether unrated bonds are appropriate for your portfolio in light of your goals and your financial circumstances. Fees charged by bond trading centers are included in the cost of bond transactions.
2. In the case of any transaction in a debt security subject to redemption before maturity, such debt security may be redeemed in whole or in part before maturity and such redemption could affect the yield presented. Additional information is available upon request.
3. The name of the person from whom the securities were purchased or to whom the securities were sold for this transaction will be furnished upon your written request.
